InnoMedCatalyst Demo Day Showcases Europe's Emerging Innovators in 5P Medicine

Piatra-Neamț, 16 June 2026

The **InnoMedCatalyst** project successfully held its first 2026 Demo Day in Piatra-Neamț, Romania. Hosted by **Rubik Hub**, the event brought together startups, investors, healthcare professionals and innovation stakeholders from across Europe and marked an important milestone in the implementation of the second round of the InnoMedCatalyst Accelerator Programme.

Nine startups presented their solutions during the Demo Day, demonstrating the diversity and strength of Europe's healthcare innovation landscape: **CLAB Neuro Sound Solutions** (Greece); **DrugBin-Solution** (Romania); **Ergobyte Informatics** (Greece); **InSyBio** (Greece); **MedSense** (Bulgaria); **Niverbec** (Italy); **OneCareAI** (Spain); **Thermovision** (Romania) and **WakeZ** (Romania).

The participating companies showcased innovative approaches across digital health, artificial intelligence, diagnostics, patient monitoring, digital therapeutics and healthcare data solutions, addressing some of the most pressing challenges facing healthcare systems today.

Demo Day Award Winners

Following a full day of panels and pitches, the jury announced the Demo Day winners:

- **1st place – Best 5P Innovation Potential:** WakeZ (Romania)
- **2nd place – Best Potential:** Thermovision (Romania)
- **3rd place – Best Presentation:** OneCareAI (Spain)
- **Audience Awards:** Thermovision (Romania) and WakeZ (Romania)

Award winners received opportunities to participate in leading European innovation and investment events, including WMF – We Make Future 2027, the Health Investor Summit and 4YFN 2027.

"The Demo Day in Piatra-Neamț demonstrated the strength of collaboration across Europe's health innovation ecosystems. Bringing together startups, investors, healthcare professionals and support organisations creates valuable opportunities for innovative solutions to grow, scale and deliver impact beyond regional borders. We are excited to continue this journey with our next Demo Day in Madeira." — **Alina Capitanu**, InnoMedCatalyst Project Coordinator and Vice-President of IMAGO-MOL, on behalf of North-East Regional Development Agency.

Looking Ahead: Madeira Demo Day 2026

Building on the success of the Piatra-Neamț event, InnoMedCatalyst is pleased to announce its next Demo Day, which will take place on **17 September 2026 in Madeira, Portugal**, hosted by consortium partner **Startup Madeira**.

The event will further strengthen interregional collaboration and provide new opportunities for innovators, investors and healthcare stakeholders to engage in Europe's rapidly evolving digital health, MedTech and personalised medicine landscape.

The **Investor E-Book**, featuring all participants in the second round of the InnoMedCatalyst Accelerator Programme, can be accessed [here](#).

About InnoMedCatalyst

The InnoMedCatalyst is an I3 project funded by the European Union, coordinated by North East Regional Development Agency, designed to enhance the regional innovation capacity of precision and personalized medicine ecosystems across Europe. Through actions such as the **InnoMedCatalyst Accelerator Programme**, startups, spinoffs, early-stage SMEs and healthcare providers strengthen their ability to develop, test and refine digital health solutions as viable business cases, paving the way for investment-ready interregional projects by 2026. With 13 consortium partners representing 10 European regions -**North-East Romania, Małopolska, Emilia-Romagna, Flanders, Catalonia, Castilla y León, Attica, Sofia, Norte and Madeira**- the project is catalysing the innovation potential of the **MEDIC NEST Digital Precision Medicine ecosystem and beyond**.

As part of its core objectives, InnoMedCatalyst is further developing **10 regional roadmaps**, alongside one **Interregional Roadmap for 5P Digital Medicine**, and a **Portfolio of Interregional Investment Projects**, shaping a cohesive and forward-looking European White Paper for the adoption and scale-up of digital healthcare solutions.
